

Auditor in a Box

Ensure compliance and peace of mind

Get compliant!

- More accurate audits
- Instant reports
- Rapid distribution
- Detailed reporting

Auditor in a Box is your own **legal eagle** designed to make compliance **simple** and **stress-free**.

It is an essential tool for Occupational Health and Safety consultants or for companies who conduct in-house audits.

Key benefits

- **More accurate audits**
Eliminate data re-capture
- **Instant reports**
Instant results and automated reports
- **Rapid distribution**
Effective use throughout your organisation
- **Auditor system**
With option to add comments and photos
- **Automated reports**
With graphs, comments and photos
- **MobiEasy plug-in available with Auditor in a Box**

Auditor in a Box is a practical electronic tool which facilitates compliance with the Occupational Health & Safety Act.

The programme is designed to assist companies in auditing and measuring compliance in terms of key legislation and provide guidelines and systems enabling them to act reasonably should reportable incidents occur.

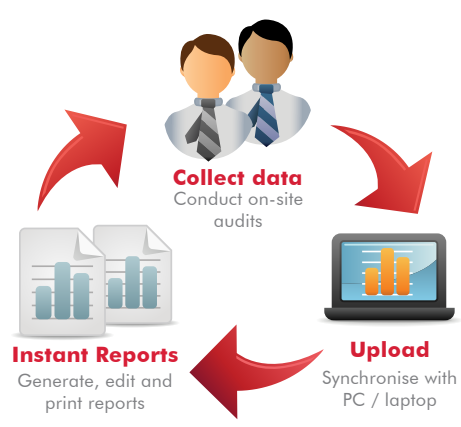

No technical assistance is required to install and use this system, so start today and get compliant now!

Implementation

The system is a **standalone** auditor system that is accessed on your PC or laptop.

The standalone auditor system includes:

- Audits
- Reporting
